[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO SEPT. 15.

EASTERN STATES.

New York News.

NEW YORK, Sept. 14.—The Committee for the reception of the Grand Duke Alexis have received official notice of his departure from Constadt for America.

Two persons, Henry Brown and Burke, drivers of a truck, were instantly killed by the Beekman street explosion this afternoon. Michael Goldschmidt, proprietor of the establishment, Henry Rigart, employee, and Mary Jane Burr, residing opposite the scene of the explosion, will probably die. A Beekman street car was passing at the time: the horses were almost blown to pieces. It is not known whether any passengers were injured. The adjacent and opposite buildings were seriously damaged by the explosion. The loss of property is considerable.

Wm. Cassidy, editor of the Albany *Argus*, S. J. Tilden and other prominent Democrats of the State, have been in consultation with Tweed, Connolly and others on city affairs to-day, and it is rumored to-night that Connolly has consented to resign on condition that he be allowed to name his successor.

Reports of the tender of the Controllership to Gen. McClellan are pronounced false.

The bondsmen of Assistant Postmaster Jones, held a private meeting this afternoon and appointed Abraham Wakeman to take charge of the disposal of the property of the defaulting Postmaster Norton, of which they have already taken possession.

Dr. J. D. Miller, brother of Joaquin Miller, poet, died at Easton, Pennsylvania on Saturday, Sept. 9th.

Democratic leaders throughout the State, are considerably exercised as to the proceedings of affairs here during the week. It is said the great question which will come before the Democratic State Convention will be the conduct of the ring faction of this city. It is thought that the country leaders will resist the Tammany demand for a new departure on the questions of municipal legislative reforms. Tweed maintains a remarkable reticence. On being advised that public opinion seemed to condemn Hall's action he regarded to Connolly, he appeared to be surprised, and remarked that he had very little opportunity of obtaining any knowledge of public opinion.

It is thought Belmont is anxious to have Connolly's position, should a vacancy occur. He and his house in Hamburg, are largely interested in city and county bonds. His acceptance of the office would tend to strengthen the credit of the city.

The signboard which has heretofore borne the name of the New York Printing Company, and which is said is the complaint in the injunction suit, to be made up of members of the ring, has been painted over, so that it now presents a black appearance.

Massachusetts Politics.

SPRINGFIELD, Sept. 14.—A complete ticket was nominated by the Democratic State Convention to-day. For Governor, John Quincy Adams, of Quincy; for Lieutenant Governor, S. O. Leach, of Greenfield; for Secretary of State, Luther Stevenson, Jr.; for Treasurer, Levi Heywood of Gardiner; for Auditor, Phineas Allen, of Pittsfield; for Attorney General, Wm. W. Warren, Brighton.

The Maine Election.

AUGUSTA, Sept. 14.—Official returns of the vote for Governor are received from 339 cities and towns and plantations. In these places Perham has 49,662, and Kimball 36,78-; majority for Perham, 9,818.

New York Stock Report.

NEW YORK, Sept. 14.—Stocks are dull but generally steady: Western Union, 65; Quicksilver, 15; Mariposa, 1; Mariposa, preferred, 4; Wells, Fargo & Co., 62; Pacific Mail, 54.

WASHINGTON CITY.

The Defaulting Paymaster.

WASHINGTON, Sept. 14.—Paymaster General Brice says it will appear upon investigation that the Treasury Department is responsible for the failure of the Government to discover the recent defalcation. Maj. Hodge's disbursements during the last six years, since the war, are accounted, as the records show, to $2,937,170, for the payment of treasury certificates for bounty alone, ranging from $450,000 to $500,000 per month for a considerable time.

BY ATLANTIC CABLE.

Bullion in Bank of England.

LONDON, Sept. 14.—The bullion in the Bank of England has decreased £658,000.

French Affairs.

VERSAILLES, Sept. 13.—In Assembly to-day Gen. D'Assy stated that two additional Court Martials for trial of Communists would shortly be appointed. He said there are now but 102 Judges to examine the cases of 30,000 prisoners including 750 convicts. Even with additional courts the Government will probably release 12,500 prisoners without trial, as it is impossible to sentence over 1,000 per month.

PARIS, Sept. 14.—A proposition introduced in Assembly yesterday suggesting amnesty to all Communist prisoners was defeated by a large majority.

Rumors of Alliances.

BERLIN, Sept. 14.—It is asserted in diplomatic circles that secret alliance entered into by Bismarck and Von Beust on part of the Governments of Germany and Austria is in opposition to alleged coalition between France and Russia.

It also stated that Italy is invited by Bismarck to become a party to the Austro-German alliance, but the invitation was declined by King Victor Emanuel, who preferred observing a policy of neutrality rather than join alliance with Germany. It is further stated that in consequence of this refusal on the part of Italy, the German Premier now threatens absorption of Italian provinces of Venitia and Bozzbardy into the Austro-German Territory. The statements cause great uneasiness, and further development regarding the alliance and looming difficulty with Italy are awaited with great anxiety.

Other European News.

LONDON, Sept. 14.—Herr Krupp, the great Prussian gun-founder and inventor, is residing at Torquay. This is regarded by newspapers as significant.

Details of the project for issue of a new loan for the city of Paris amounting to 350,000,000 francs are published to-day.

LISBON, Sept. 14.—The Empress Eugenie arrived here to day from London. She was visited by the King and Queen of Portugal, and soon after left by rail for Madrid.

It is stated that an American brig foundered off Land's End, and all on board perished. The name of the vessel is unknown.

CANADA.

Horse Aquatic Sports.

MONTREAL, Sept. 14.—The four oared race today was won by the Halifax Burton crew, in 33 minutes 10 seconds. Both the English crews led, but went 30 yards beyond the turning buoys before discovering their mistake. They claim that the buoys were changed during the night. The Renforth crew came in second, 150 yards behind the Burton and 50 yards ahead of the Winship.

Bonner, of horse fame, doubts that Goldsmith Maid beat Dexter's time on the Cold Spring course. He says that if she had trotted a mile in 2:17 it would still leave her behind Dexter, for he trotted in the presence of 10,000 people, in 2:16, although he was beaten in that race by a running horse who made 2:15, and therefore got the record. He offers to pay $100,000 for the horse which will beat Dexter's feat of a year ago, trotting a mile in 2:21¾ with a road wagon, together with a driver weighing 319 pounds behind him. If the owner of that horse declines to sell him, Bonner will give $10,000 for the pleasure of seeing the feat performed.

Hyfford Barr, a country gentleman of England, has established a "snakery" in his park, where he keeps a large number of the innocent species of snakes, and hopes to improve the character and condition of the reptiles of England by careful cultivation and a judicious mingling of the breeds.

OREGON.

J. V. B. Butler is erecting a residence costing $6,000.

The walls of the College building at Monmouth are nearly completed.

This (Saturday) evening the Republicans of Salem will jubilate about the elections in California and Maine.

Brick Pomeroy is coming to Oregon, and will deliver the next annual address at the approaching Linn County Fair.

The Wilhoit Springs property in Clackamas county, was purchased by Mrs. Sarah Burbank and son, who will fix up the place as an attractive Summer resort.

A considerable sum of money has been raised at Baker City to aid E. H. Twigg, the unfortunate contractor on the Baker Academy, which was destroyed by fire.

The sixth Annual Session of the Columbia Conference of the M. E. Church, South, was held at the Santiam camp-ground, Linn county, Oregon, beginning September 6th, and ending September 11th, 1871—Bishop J. C. Keener, of New Orleans, presiding.

From the Albany *Democrat*: Jack Shepard concluded his walk of 100 hours without rest or sleep, at Harrisburg on last Wednesday evening. Persons who saw him during the last hour say he was a pitiable spectacle. The proceeds did not amount to $20. Jack had better go to work on the railroad. His exhibitions are not appreciated in this enlightened community.

On what the *Statesman* had this item: The said 'cereal was never more certainly a cash article than here at the present time. Probably half the wheat in this valley has been engaged at not over one dollar per bushel, and as the price has gone up at least 15 cents on the bushel, the rise on a million and a half of bushels is a profit to buyers of nearly a quarter of a million dollars. Don't you wish you hadn't sold your wheat?

From the *Statesman*: We learn from E. M. Waite, Secretary of the Agricultural Society, that improvements are progressing at the Fair Grounds, and the Board of Managers are determined to do all that lies in their power to add to the comfort and convenience of the public, which will certainly be present. The prevalence of dust has been a great drawback, and this will be avoided greatly by the arrangements in progress. A steam pump will be erected on the grounds where sprinklers can fill up and another arrangement will be made at Mill Creek, so that they can fill at both ends of the route.

THE TERRITORIES.

Many claims are being taken up by settlers on the Snohomish river, which empties into the Sound north of Seattle.

Since the first issue of the Arizona *Miner*, four years ago, over one hundred of its subscribers have been killed by Indians.

The editor of the Idaho *World* was serenaded the other night and got up and made a speech to the serenaders, while his lines streamed bravely out behind.

The Olympia *Tribune* tells us that "the Agricultural, Horticultural and Mechanical Fair, to be held on the 7th and 8th of October, is designed to illustrate the resources and progress of this Territory and British Columbia, west of the Cascades."

The Seattle *Intelligencer* has a grievance. It complains that the European capitalists were hurried around and not given a chance to see the glory and majesty of that coming metropolis. They were not afforded an opportunity to see the hole where the justly celebrated Seattle coal comes out; hence the supposition that the railroad officials who had them in charge are deadly enemies of Seattle, and have some other "terminus" in view. The enough to drive any terminal population mad to be so slighted.

CALIFORNIA POLITICAL ITEMS.

The Republican legislative ticket in San Francisco had an average majority of 2,469.

The vote on Mayor in San Francisco stood thus: Alvord, 13,402; Curtis, 11,053. Alvord's majority, 2,349.

The vote for Booth in San Francisco was 13,098; for Haight, 11,005. In 1868 for Grant, 12,184; for Seymour, 13,582.

John A. Bingham, who spoke several times in the California campaign, telegraphed from Cadiz, Ohio, his congratulations upon the victory.

Richard J. Houston, Secretary of the Republican National Committee, telegraphed from Washington to the Republican Committee of California: "Accept hearty congratulation for your success—California leads for '72."

The San Francisco *Chronicle* says: The defeat of Badlam for Assessor, was received with considerable regret. The friends of Roesner (his opponent) used money in unlimited quantities. In every ward they worked like beavers, trading off everything, even Gov. Haight, for votes for their favorite.

North Carolina.

COMPLETE OFFICIAL VOTE OF THE STATE ON THE CONSTITUTIONAL CONVENTION.

The complete official returns of the vote in North Carolina on the proposed Constitutional Convention, shows that it has been defeated by a majority of 9,215. The total vote is 181,259, divided as follows: For Convention, 86,007; against it 95,252. The total vote at the last State election—that for Attorney-General in 1870—was 171,175, of which the Republicans threw 83,427 and the Democrats 87,648.

The vote now for Convention falls 1,641 short of the Democratic vote then; and the number of votes against the Convention is 11,825 in excess of the Republican vote then. The vote against Convention is 1,466 less than that President Grant received. The registered vote shows that 20,000 votes were not cast at the recent election. Forty-six counties voted against Convention and forty-three in favor of it. Sixty Conservatives were elected to the Convention (to take their seats in case it were carried) and sixty-one anti-Convention candidates. These are the figures after they have been "arrayed" by the Democratic Commissioners of election, who threw out enough votes to defeat two anti-Convention men. Otherwise the delegates elected would stand sixty-three to fifty-eight. As the Convention is defeated, it of course makes but little difference, except as showing the irresistible Democratic tendency to fraud.

Judge Richardson has recently written from Paris to the Secretary of the Treasury, urgently requesting copies of the report on immigration. It is represented that quite a number of French families are anxious to emigrate to this country as soon as they can receive proper information. Nearly all the copies of the report on immigration that remained in the Bureau have been forwarded to Consul General Read.

The Attorney General has issued instructions to the District Attorneys of the various United States Courts which hold fall sessions to immediately institute suits against all Revenue Collectors who are deficient in their accounts or have a balance charged against them.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

Murderer Respited.

WHITE PLAINS, N. Y., Sept. 15.—Judge Pratt granted a stay of proceedings in the case of the condemned murderer Buckhout, who was to have been executed to-day.

Another Gold Conspiracy.

NEW YORK, Sept. 15.—Information has been received by Judge Bedford, of the Court of General Sessions, this morning, that a gigantic and wicked conspiracy had been set on foot in Wall street for the purpose of locking up millions of dollars, and by this means injuring the commerce of the city and prospects of the whole country. The Judge immediately convened the grand jury and charged them to be prompt and fearless in action at once. In a few days some of the most respectable brokers and business men of the city will be summoned before the grand jury, when it is expected the most startling exposures will be made.

Miscellaneous New York News.

NEW YORK, Sept. 15.—It is said that Tweed, Hall and Sweeney have dissolved partnership, the latter refusing to be a party to the demand for the resignation of Connolly and demanding a new deal by having control of the Tammany affairs.

The steamship *Columbia* caught fire in the hold last night while coming up the bay. The fire was subdued without great damage, though the extent of the loss to the cargo is not definitely ascertained.

The Fenian leader, James Stephens, arrived yesterday from Havre. The object of his visit is to establish himself in the wine business here.

The Grand Jury brought in a true bill indicting Rosenzweig, the abortionist, for manslaughter.

In the injunction suit to-day, argument was commenced by counsel in behalf of Tweed. The counsel for plaintiff will probably finish this afternoon, when the case will be closed, though it is improbable that a decision will be rendered immediately.

Another Fire.

ROCHESTER, Sept. 15.—This morning, a little boy of nine years, son of James Tarbox, while playing in the Capital saw-mills was caught in the machinery and had his left arm torn off near the shoulder. He is not expected to live.

Miscellaneous New York News.

NEW YORK, Sept. 15.—It is said that Tweed, Hall and Sweeney have dissolved partnership, the latter refusing to be a party to the demand for the resignation of Connolly and demanding a new deal by having control of the Tammany affairs.

The steamship *Columbia* caught fire in the hold last night while coming up the bay. The fire was subdued without great damage, though the extent of the loss to the cargo is not definitely ascertained.

The Fenian leader, James Stephens, arrived yesterday from Havre. The object of his visit is to establish himself in the wine business here.

The Grand Jury brought in a true bill indicting Rosenzweig, the abortionist, for manslaughter.

In the injunction suit to-day, argument was commenced by counsel in behalf of Tweed. The counsel for plaintiff will probably finish this afternoon, when the case will be closed, though it is improbable that a decision will be rendered immediately.

WASHINGTON CITY.

The Indian Claims Commission.

WASHINGTON, Sept. 15.—The time for the United States and Modoc Commission to examine and decide upon claims which come before them expires on the 1st of February next. It is thought however that the Senate will at the next session take the pending treaty, providing for extension of the jurisdiction of Commission for a period of two years.

The Alabama claims agent has already arrived at Rome in December.

The ratification of this treaty provides for the extension of time in which to file claims on part of the United States and the Republic of Mexico, and provides that after the Commission shall have rendered their decision, the amount awarded in favor of all cases decided in favor of citizens of either country shall be deducted from the amount awarded to citizens of the other party, and the balance shall be paid either at Mexico or Washington within 12 months from date of the decision, in favor of the party to whom the greater amount shall be awarded, and the balance to be paid in annual instalments of $500,000. It is given out here that judgment will be largely in favor of the United States, and that the objection can be made to a ratification of the treaty now pending. The general impression is that this will be done during the early part of the approaching session. It is reported that the United States in the settlement of these claims of her citizens will, in lieu of payment in gold for its equivalent, make a proposition to the Republic of Mexico for a portion of her territory, and the United States can indemnify her citizens by gold payments.

The opposition on Oakland and San Antonio routes has not been here and Sacramento causes unusually lively times along the levy front. The steamer *Enterprise* carrying passengers at $1 and freight at $1 50 will leave for Sacramento evening loaded with both.

McGlynn is elected that he is beaten by 200 to 500 votes by Brodhead.

Reports on the street that by agreement between the Pool in railroads and the Panama steamers freights to and from New York will be raised immediately fifty per cent. have created great disappointment and discouragement among merchants to-day. The rumor appears to be well founded, and the new tariff will probably be announced immediately.

President Juarez, announces that to remove all ground of complaint the Mexican Government will concede to the Lower California enquiry five hundred leagues of land in lieu of the contract for colonization which the county has failed to carry out, and is therefore annulled and will not be renewed as the land is not worth one half a cent an acre and could not be sold at any price. The stockholders in the county will not receive a large dividend from that source.

The Daily Oregonian.

SATURDAY MORNING, SEPT. 16, 1871.

Woman Suffrage.

The discussion on woman suffrage, which has been quite familiar for some time to the people of our Eastern States, is comparatively new in Oregon. Recently it has been opened with a good deal of vigor here. Whether those who are making a specialty of it shall be disappointed or not in securing the suffrage for woman, it is tolerably clear that they will be disappointed in the results to flow from it, in case they gain it. What occurs to us most plainly in the present state of the discussion is that much more is expected from the suffrage for woman than can possibly be gained by it. It is often spoken of by its enthusiastic advocates as the sovereign cure for all injustice to woman, as the great and sure agent of complete social reform; as the be-all of human progress, and the end-all of perplexing social problems. Too much is claimed for it. Some important changes and results it may produce, but it will not change human nature, do away with injustice, abolish utterly social evils, greatly purify the body politic, or materially change the conditions of our political and social life.

As an individual we shall probably vote for woman suffrage when the question is presented, and we shall do so because we see no serious objection to it, and because we feel that it is necessary to do so in order to satisfy the arguments of those who insist on woman's right to vote. There is, indeed, much force in the argument that women as a taxpayer is wrongfully subjected to a share of the burdens of government, while she has no voice in its direction. They, also, who argue from the recent constitutional amendments that women has a right to the suffrage, have never been answered, and it is much easier to ignore their argument than to answer it.

Some in their alarm exclaim that if suffrage is given to woman the foundations of society will be broken up and a train of evils and woes will follow. These alarmists are as extravagant in their notions as those optimists who advocate woman suffrage in the belief that it will prove a remedy for greatest political and social evils. We shall expect, if woman gets the ballot, to see things go on very much as now. Neither a deluge of woes nor a millenium of felicity need be anticipated from it.

There is complaint about brutal husbands. Unhappily there is too much reason in too many cases for it. But suffrage for woman will not cure brutality in husbands. The ill-used wife will not be less ill-used by her brutal husband when she has the ballot. He will not be held in restraint because his wife can vote. Voting will be no remedy for such cases. It may be said that when women vote they will make laws to punish brutal husbands. There are such laws now. Yet what do we see? In nine cases out of ten the wife prefers to suffer in silence, or even if the husband falls into the hands of the law she devotedly steps in to screen him. There will always be cases of brutality on the part of husbands, suffrage or no suffrage, and the multitude of women who are weary under the accumulated burdens of life will find that suffrage will not lighten their load.

Again, it is complained that woman's labor is inadequately paid, and suffrage is the remedy prescribed for that. Here, again, is a mistake. Doubtless it is meant that when she votes she will insist on the enactment of a law to give her the same wages for the same work as men receive. But no law to fix or regulate the wages of labor ever accomplished the result aimed at. There is a law at demand and supply that is above all legislation. Woman as well as man is subject to it. Suffrage will not abolish it or change its inexorable conditions.

Nor will the power of suffrage by woman effect any material change in the relative duties and employments of men and women. As a general rule it must devolve on man to go forth from his home to get subsistence for his family, and on woman to keep the home and care for their offspring. When the practical question is asked, "Who will take care of the children?" it is no answer to inquire, as Miss Anthony does, "Who takes care of the babies of fashionable women now?" 'Fashionable' people generally have money to pay for what they want. But such are a very small proportion of the whole body of people. Women who can't hire their babies taken care of must do it themselves, and suffrage will not relieve them from the duty and burden. The relative employments of men and women have been arranged as they now exist by the rules of convenience and the laws of necessity, and no legal reforms will change them.

The purifying influence to be exerted in our politics under woman suffrage is much dwelt upon. When virtuous women go to the polls we are told the effect will be felt in the general purification of politics. This rosecate view leaves out of consideration the fact that bad women will vote with the good; and, what is more, the bad will exert far more influence in proportion to their numbers. Besides, human nature in men and women is very much the same. Women as a class are not greatly better than men. When women vote, therefore, we shall not expect to see an end of fraud, corruption, vice and injustice.

We are not offering a position against woman suffrage. We are simply pointing out that most of the subjects discussed in connection with it are irrelevant and do not belong in the discussion. The question need not be overloaded with "side issues." It is best to take a practical view of it, and not to expect results from the movement which never can be attained by it.

A Little More Analysis.

Last week the Oregon City *Enterprise* undertook to tell how the "Radicals" in control of the National Government were swindling the people. That paper took the aggregate expenses of the last fiscal year, compared with the expenses of the last year under Buchanan, and then dilated on the prodigious difference. We showed that the *Enterprise* in reckoning up the expenses of the last fiscal year had omitted to mention that there was included in the aggregate the amount paid as interest on the public debt, together with the amount by which the principal was reduced and the sum paid for pensions,—the whole of these payments aggregating nearly $300,000,000, and that no part of this expense was necessary in Buchanan's time. Though caught in its disingenuous statement the *Enterprise* does not yet despair of the efficacy of misrepresentation, and thus tries again:

> There are now collected from the people annually taxes to the amount of 425 millions of dollars. Of that sum about 120 millions go to pay the interest on the national debt, 30 millions for pensions, making together 150 millions. Deduct this sum from 425 millions, the amount collected from the people, and there are left 275 millions to be accounted for. $100,000,000 to buy bonds for the sinking fund, and there still remains $175,000,000 to carry on the government against $60,000,000 under Buchanan. Why is this? What excuse is there for it? Why does it require three dollars now where it only took one in 1869 for ordinary expenses? The country is no longer involved in war. We have no other extraordinary expenses. We have the same Departments of Government—State, War and Navy.

All this would be very well if there were any truth in it. But from beginning to end it is full of erroneous statements. To begin with, the amount of taxes collected from the people during the last fiscal year was not $425,000,000; but exactly $383,323,944 69. Of this sum $125,676,565 went to pay interest, and $120,745,147 to buy bonds. The amount paid for pensions was a fraction over $32,000,000. Here was a disbursement of $278,000,000 out of $383,000,000, leaving $105,000,000 for all the other expenses of the Government, against $78,000,000 in Buchanan's last year. Reduce the $105,000,000 expended during the last fiscal year to a coin basis and we have about $95,000,000 against Buchanan's $77,000,000. The army is larger now than it was then and of course costs more, and so with the navy. Besides, we have 10,000,000 more people than we had then, and it costs more to carry on a government of 40,000,000 than a government of 30,000,000 inhabitants. This should be plain to the *Enterprise*.

The result of this exhibit is that it costs no more in proportion to population and extent of territory to carry on our Government now than it cost when Buchanan was President. But when Democratic editors count in the whole amount paid on the national debt as part of the "expenses of a Radical Administration" they make the account look somewhat formidable to those who do not analyze their statements.

The Democratic paper at Oregon City denounces in furious language the "thieves" in Congress who gave the great land grant to the Northern Pacific Railroad Company. That means Congressman Smith of Oregon and several other Democrats, who voted for the grant along with the Republican members.

The East Portland *Era* is out with another of its vigorous protests against the "new departure." Speaking of the acceptance by its party of the Constitutional amendments it says: "If we yield here to Radicalism we see little use of opposing it at any other point."

CITY.

THE OREGON TRANSFER COMPANY.—The following articles of incorporation of "The Oregon Transfer Company," with W. L. Halsey, I. R. Moores, and H. Thielsen, as incorporators, were filed in the County Clerk's office on Thursday:

ART. I. The name hereby assumed by this corporation, and by which it shall be known, is "The Oregon Transfer Company," and its duration shall be fifty years.

ART. II. The enterprise, business, pursuit and occupation in which this corporation proposes to engage is that of a general transfer business, of freight and passengers, in the State of Oregon, across and along rivers and other streams forming the boundary thereof, and in adjoining Territories; to receive and receipt for all kinds of baggage and freight, and the same for hire, transfer and convey to and from any and all depots, wharves, steamships, ferry boats, docks, sail vessels, railroad cars, hotels, houses, shops, stables, stores or other place or places within said State, or on said rivers or other streams, or in said adjoining Territories; and for hire, to transfer and convey passengers to and from any of the points last above mentioned, such transfer of baggage, freight and passengers to be done in any manner, or by any vehicle that this corporation may see proper to adopt; and, for such purposes, to purchase, hold, employ and use all necessary teams, horses, mules, drays, trucks, wagons, express wagons, hacks, coaches, omnibuses, street cars, and other necessary and convenient means for the transportation and transfer of baggage, express matter, freight and passengers; and for such purpose to enter into contract with any railroad company, steamship company, steamboat company, corporation or private individuals or firm, for the exchange of tickets and transfer of baggage, freight and passengers, in conjunction with this corporation and over lines connecting with the business of this corporation, and for such purposes to purchase, hold and use all real estate necessary or convenient for such purpose, and generally to do and perform all things necessary or proper to be done in order to carry on a general transfer business of baggage, freight or passengers to or from any point or place within the limits above specified and expressly within the cities of Portland and East Portland.

ART. III. The principal office and place of business of this corporation shall be in the city of Portland.

ART. IV. The amount of capital stock of this corporation shall be and is $200,000.

ART. V. The amount of each share of capital stock shall be $100, and the same shall be divided into two thousand shares.

A DISTRICT FOR SETTLEMENT.—Mr. Clark Smith, who has been surveying, lately, in Washington county, writes to the *Advocate* that there is a tract of land lying in township three, north; range three west, that is very inviting to any persons who may be needing homes. This tract embraces bottom lands, table lands and some covering the spurs of the Coast Range of mountains. The bottom land is mostly the basin of Quick Creek, the level and lowest part ranging from a quarter to three quarters of a mile in width, is contains a very rich alluvium, and is timbered mostly with ash, alder and white fir. The table and hill lands are open, having been burned over so that it is almost entirely clear of trees, brush, stumps or roots, and is in excellent condition to receive grass or clover seed to be made into an extensive and very productive pasture. There are several sections of each of these kinds of land. The south side of these lands is 12 miles north of Hillsboro, and all lie in Washington county. There are settlements up to the south side of them, and a good saw mill and factory within three miles. An important feature concerning the whole tract is the vast number of large cold springs which are to be found over it. Mr. Smith will furnish any further information about the above tract as any interested person may desire.

STREET RAILWAY COMPANY INCORPORATED.—The Street Railway Company, for whose benefit the recent ordinance was passed by the Council, filed its articles of incorporation on Thursday—Ben Holladay, W. L. Halsey, Lewi Estes, D. S. Skinner and J. H. Mitchell, incorporators. It takes the name of "The Portland Street Railway Company," duration, fifty years; principal office at Portland; capital stock, $200,000, divided into two thousand shares of $100 each. The company will lay down and operate iron railways on the following streets: North First, First and South First streets; North Third, Third and South Third streets; Fifth, North Fifth and South Fifth streets; also D, B, Washington, Morrison, Taylor, Alder, Main, Jefferson, Market, Clay, Hall, North Front, Front and South Front, Ash, North Sixth and South Sixth streets; also C, E and F streets, the entire length of each of said streets, so far as said streets may at any time hereafter be improved.

FROM Mr. Hoob.—The East Portland *Era* says: "Mr. D. M. Talbot, who has just returned from a trip east of the Cascades reports that the old Barlow route, heretofore reported as in bad condition, is at present in good traveling order. The fires are now raging in some localities in that direction doing incalculable damage to the fine forests of timber. He found about one hundred Warm Spring Indians encamped about eight miles east of Mount Hood, engaged in laying in their winter supply of jerked elk meat and berries. Game and fish are plentiful, and the small prairie adjacent to the mountains are blue with huckleberries. The elk taken by the Indians are found to be very fat, indicating, as they say, a severe winter. Mr. Talbot was detained there some three days, his companion, Mr. Andrew Brigham, having got lost while hunting elk, lying out that time in the wilderness, and only reaching camp by accident."

PROGRESS OF THE RAILROAD.—The work of laying the O. C. Railroad through Fourth street is making good progress, considering the character of the work done. The track is aligned and leveled at the time of spiking down, and all the street crossings are at once planked over. Usually the alignment, leveling, etc., are left to be done afterwards. The track, last evening, had reached Yamhill street. Nearly all the upper end of the street, to the high bridge, is graded and ready for the sabsills and ties. The locomotive, John H. Couch, appears to be nearly ready for service. It may be expected to make its first appearance some time next week. Mr. Hart, of the contractors, informs us that only a small part of the road between the city and Hillsboro remains to be graded. When once the track shall be connected at the high bridge, the rails will soon be laid down to the end of the section.

IMPROVEMENT AND GROWTH.—We had occasion to go into the extreme southern end of the city yesterday, and we must confess that we were not quite prepared to find so many improvements—new residences and new streets. All the large tract of ground, say above Harrison street to Marquam's gulch, which last year lay comparatively naked and filled with only one or two half improved streets, is now dotted over thickly with dwellings, and all the lateral and cross streets are either graded or in course of improvement. The street improvements alone are immense and surprising. Beyond Marquam's gulch also a smart village has sprung up, and since the building of the First street bridge, improvements there have taken an accelerated impulse.

PROLIFIC.—Yesterday morning Mr. H. T. Lewins left at our office a limb of a Blue Columbian plum tree, which was "a sight to see," every twig on it being literally packed with fine, large fruit. The tree is a young one grown in his garden, and never had any cultivation except once a basket of common stable manure. The limb in the space of two feet in length must have had nearly twenty pounds of plums.

"FAIREST OF THE FAIR."—This is the title of a new piece of music—a schottisch—composed by Mr. G. L. DePrans, of Gray's music store, in this city. We have not had time to examine it (our musical proxy is absent), but we learn from the title page that it was "played nightly with great success by Schmidt & Schlott's orchestra at the Mechanic's Fair," San Francisco.

WORK ON THE CATHOLIC CHURCH.—This building, at the corner of Stark and Third streets, is undergoing a course of enlargement and repairs. With the exception of painting and some inside finish, the work is nearly completed. When finished, the building will be 45 by 85 feet. The inside will have eighty seats, capable of seating between 400 and 500 people.

REAL ESTATE TO BE SOLD.—Mr. A. B. Richardson, auctioneer, will sell to-day quite a number of lots in various parts of the city at auction. Many of these lots are desirably located, and the terms of payment are easy.

TO SAIL.—The steamship *Idaho* is advertised to sail for San Francisco, at 7 o'clock this evening.

RELIGIOUS INTELLIGENCE.

PERSONAL, LOCAL AND GENERAL.

[From the Advocate.]

The brick walls of the new M. E. Church, Salem, will be commenced on Monday next.

The new Baptist Church, which was dedicated at Oregon City, Sept. 3d, is entirely free from debt. It has thirty four members.

Rev. C. C. Stratton, agent of the Willamette University, is at present on a visit to Puget Sound, laboring in behalf of his agency.

Rev. D. Rutledge, agent of the Freedmen's Aid Society, was at last accounts laboring successfully in behalf of that Society, in the New England States.

Bishop Morris reports eleven Presbyters and one Deacon as connected with the Protestant Episcopal Church, in the Missionary Jurisdiction of Oregon and Washington Territory.

Mr. Geo. P. Riley, the gifted orator (colored), having disposed of his business in this city, will return East by the outgoing steamer. Mr. Riley has done much by his personal efforts to encourage others of his race to form habits of economy, industry and temperance. Through his influence a Homestead Association was formed among the colored people of this city, which, although on a small scale, has been eminently successful. If the way opens, Mr. Riley will go South to labor for the elevation of his race.

The following are the appointments of the Columbia Conference of the M. E. Church South for the conference year 1871-2:

Willamette District—B. R. Baxter, P. E.—Brownsville Circuit, J. W. Stahl; Albany, E. G. Michael; Dallas, A. E. Soars; Oregon City, R. C. Oglesby; East Portland Mission, to be supplied; Lafayette, G. [From the Catholic Sentinel.]

Wednesday, Friday and Saturday of next week are Ember days, observed by the Catholic Church as days of fasting and thanksgiving to God for the fruits of the earth and a remembrance of the same. These days are strict fasting and abstinence days.

The Sisters of the Academy of the Sacred Heart, Salem, cordially solicit the liberal patronage of the benevolent friends of education in behalf of their Fair, which will be held during the State Fair. The proceeds are to be applied towards erecting a new Academy.

The *Courier de Canada*, of Quebec, under the head of "A Missionary Poet," notices the presence of Very Rev. B. Delorme, V. G., in that city, and his departure for Oregon via Montreal, accompanied by some Sisters, who are coming to reinforce the Society of the Holy Names of Jesus and Mary in this State.

EAST PORTLAND.

[From the Democratic Era.]

HEAVY FREIGHTS.—The Oregon and California Railroad is now doing a heavy freighting business. Immense quantities of wheat are continually passing over the road, besides live stock, etc. Judging from the length of trains which have passed here, this seems to be the liveliest week of the season.

WOLVES.—Last night a pack of wolves, fleeing from the fires now raging in this vicinity, made a short stop on the outskirts of town, and during their stay, made "Rome howl!" Ten years hence the then oldest inhabitant will tell his children how he well remembered the time when the wolves used to howl in the streets of the city.

NEW CHURCH.—Ben Holladay some time ago generously donated the Congregationalists a church site on his addition to this city. Since that time the society have circulated a subscription list to obtain funds to build a church, and have met with success sufficient to warrant them in the erection of a building to cost $3,000. This sum, if properly expended, is enough to erect a neat edifice.

PERSONAL.

Mr. E. L. Bristow, M. W., Grand Master of the Grand Lodge I. O. O. F. of Oregon &c., arrived at this city last evening and made an official visit to Hassalo Lodge. He is just off a tour of the lodges of Eastern Oregon and Idaho.

Among the passengers coming by the *Ajax* is Rev. G. P. Weaver, who will become pastor of the Lutheran Church of this city. He comes from Maricttа, Pennsylvania, and is noted for ability, piety, eloquence and general accomplishments as a minister. His first sermon will be delivered on Sunday, the 24th inst.

Mr. John A. Carr of this city, returned by the *Idaho* from an absence of several months at the East—most of the time at Chicago, where he, with Mr. J. C. VanRensalaer, also of this city, has been prosecuting measures for the recovery of a large landed interest. Mr. Van Rensalaer started for Albany, N. Y., at the time Mr. Carr started for Portland.

A BAD CASE.—Yesterday afternoon a gentleman having occasion to visit the rooms of the Young Man's Christian Association, found at the entrance a poor woman and child, the latter vomiting and the mother crying. Upon inquiry, he found that the child was sick with measles, the mother destitute, husband absent in California, nothing in the house for any of the children, seven in all, to eat, and the woman had taken her sick child, whom she could not leave, and had come out to solicit help from the Y. M. C. Association. The gentleman who has charge of the rooms was not to be found just then, so the gentleman gave the poor woman what money he had with him and later in the evening provided for her relief. Such cases of distress as this are not common in this city, and we invite the attention of the charitable to it, as calling for their intervention.

SPECIAL CHURCH NOTICES.—There will be public services to-morrow, as usual, at the M. E. Zion church. In the evening Rev. H. F. Williams will preach—text: "There is a way which seemeth right unto man, but the end thereof is death."

Rev. E. A. Friderichsen, D. D. of the Scandinavian Evangelical Lutheran Church, will hold religious services to-morrow, at the parsonage in East Portland, in the Norwegian language, at 10½ o'clock, A. M. The Consecration of the new Church has been postponed to the 24th.

Rev. Mr. Eliot of the Unitarian church, will preach to-morrow evening the first of three sermons on The Responsibility of Women. Subject to-morrow evening, "Household Architecture; every wise woman buildeth her house; but the foolish plucketh it down with her hands."

THE EXPERIMENTAL HOLLY WELL.—Mr. Combs informs us that he has finished the work on the experimental well, sunk by direction of the Committee of the Council to whom was referred the matter of water supply for the city. He sunk the shaft 28 feet and then drove pipes about thirty feet deeper. The water at once came up and stood in the pipes about eight feet higher than the level of the river. The lower end, however being in sand, they soon choaked and prevented the flow. Mr. Combs is satisfied that the supply of water could not be exhausted by any ordinary pumping apparatus, and that if the pipes could be kept clear of the choaking sand, he would have an artesian well. The experiment probably proves that inexhaustible wells may be had.

PRETTY GOOD FOR HIM.—Mr. Marshall, Street Commissioner, is making himself felt in the matter of clearing the streets of obstructions. Within the last fourteen days he has served 242 notices upon parties to remove wood piles and other street obstructions. Besides this he has had over 6,000 lineal feet of street improvements to look after. Rather a busy polish, that for Street Commissioner, we should say.

"THE MOUND PRAIRIES OF OREGON."—There is in the *Land Owner* (Chicago), of September, a very good illustration of the "Mound Prairies of Oregon," which, by the way, are not in Oregon, but in Washington Territory. How things do get mixed in this world.

SEVERE ACCIDENT.—Mrs. Matthew Patton was so severely injured by a fall from a chair, while in Washington county last week, that she was brought to town for surgical treatment. She is now at Dr. R. Patton's, but is unable to leave her bed.

Influence of Temperature on Health.

In the fall the difference between the temperature o night and day is greater than at any other time of the year. In the early autumn the quicksilver sometimes rises as high during the day as the most torrid summer weather; while at night it often sinks to an almost wintry point. The human body not being made of steel or India rubber, sensibly feels these tremendous changes. To fortify the system against them, a genuine tonic is required; and the public has long since discovered that among this description of medicines Hostetter's Stomach Bitters is infinitely the best. It gently quickens the circulation, regulates the bowels, tones the liver, braces the nerves, and thus puts the whole physique on its defense against the vicissitudes of temperature in our climate. Few, if any cases of epidemic fever are heard of in localities where it is in common use. As it becomes more and more widely known, and the demand for it increases, chills and fever and the bilious remittent seem to recede before it, and if ever it should come into universal use, these diseases would cease to be known as the scourges of our low-lying and marshy districts. That homely bit of proverbial philosophy, that "prevention is better than cure," should be especially borne in mind in the autumn months; and indeed in all seasons, together with the fact, that among all the preventives of malarious disease, Hostetter's Stomach Bitters is the most safe and potent.

Be certain, however, to obtain the genuine article, as countless imitations of a pernicious character are abroad. See that the externals are all right, and remember that Hostetter's Stomach Bitters are sold in bottles only.

Precarious Condition of Affairs in France.

A dispatch from New York, dated the 9th inst, gives this:

The *Journal de Paris* of August 28th, received to-day, in an article on the increasing evidences of discouragement which have been shown in the conduct of the Assembly and Government, says: "The deplorable struggle late entered upon between the majority has borne its fruits; the union of Liberal and Conservative forces effected last February is dissolved, revolution and Cæsarism, which are identically one and the same thing are regaining the ground which they lost. The country is in search of a guide-post, but can find it neither in the Government, which no longer follows, nor the majority, which is afraid of making the former walk in its footsteps; it will seek this guiding hand either on the benches of the Left or at Chiselhurst. Every one sees this double peril, the peril of a demagogic revolution, or an imperialist restoration. Every one feels that we are being dragged toward a gulf which the last debris of our public and private fortune, of our social principles, of our morality and honor, will be swallowed up.

"Were nothing but intelligent and clear-seeing minds necessary for the salvation of a people we are well supplied. They are not wanting either in the Government benches (particularly at the head of the Government) nor on the side of the majority, but other qualifications are essential at these troublous times. Resolutions, abnegation of self, force of character—in a word—men. Let us away with this barren and profitless contemplation of our woes, which is the sole occupation just now of the Government as of the majority and the country itself. Discouragement is a bad schoolmaster. Let some man show himself either in the Assembly or in the country. Let him have the courage to speak the manly language which great parties puts into the mouth, and the great heart of this nation, if she be not utterly dead, will respond to the call.

How the Charges are Met.

Congressman Roosevelt, of New York, a Democrat and editor of a Democratic paper, the *Citizen*, makes the following statement, which goes exactly to the point:

The charges against our municipal rulers are met by the following answers: Firstly, what are you going to do about it? Secondly, we admit the bills; were a little extravagant. Thirdly, some Republicans are as bad as we are. Fourthly, as to property was fraudulently sold by us, the *Times*. If anybody be not satisfied with these answers, he must be hard to please. Of course, a mass of imaginary carpeting were paid for, if the people cannot help themselves; and acres of non-existent plastering were charged for, if a corrupt Republican presumes to live, and naturally piles of unsubstantial and shadowy furniture were put to the debit of the citizens, if land was sold to the *Times* illegally. Nothing possible can be clearer than these explanations, and any man who grambles will need a visitation from the Tammany police, or the issuance of a Tammany injunction.

FINANCE AND COMMERCE.

PORTLAND, FRIDAY EVENING, Sept. 15, 1871.

Gold in New York, 110¾.
Currency buying, 87½; selling, 88½.
The steamer *Idaho* brought up $120,000 in coin from San Francisco.
The steamer *Idaho* will leave for San Francisco to-morrow (Saturday) evening at 7 o'clock. Steamer *Ajax*, due on Monday night, will leave on Thursday, Sept. 21st for San Francisco. Steamer *California* is advertised to leave for Victoria and Sound ports on Saturday, Sept. 23d. Steamer *George S. Wright* will leave here October 1st for Bitter and intermediate points.
We have been positively assured that the steamer *Constantine* has been drawn off this route all reports to the contrary notwithstanding. Her owners telegraphed to the agent here to dispose of cargo coal per *Clara Light*, now due.
The bark *Garibaldi* has the bulk of her cargo engaged, nearly, if not all, will be flour. The number of tons she will take will be regulated by the number of passengers.
The Oregon and Liverpool Merchants' Packet Line's steamer Junior & Rhodes, agents here, have the A 1 iron bark *Coldstream*, of 585 tons register, on the berth at Liverpool for this port. She will sail from Liverpool on the 1st of October with cargo of assorted merchandise.
The advance in Coffee noted by us yesterday is but the beginning of rapid advances. In the importations on the Pacific coast, Central American Coffees are the principal kinds, as the following table of imports into San Francisco from January 1st, 1871, to August 31st shows:

	Bags.	pkgs.
Central American	8,631,029	1,490
Rio	827,360	
Java	258,304	
Manila	442,786	
Hawaiian	81,181	
Tahitian	13,418	
San Domingo	2,700	

There has been exported to the Western and Southwestern States and Territories, via the Continental Railroad, two or three large invoices independent of a large number of small lots. We have not at this writing any authentic reports as to the crop in Central America, but from the islands reports have been received giving information of a less yield than heretofore. The supplies in the Atlantic, Western and Southwestern States are obtained principally from Brazil. Reports from Brazil state that the crop is short, with lighter stocks on hand than known for years. But this deficit will be made more than good by importations from Bolivia upon completion of the railroad from the sea coast, which is now being fast pressed to completion. Before the 1st of January it is thought 250 miles will be in operation, and in a very short time (computing railroad building time) 350 miles more will be added. But it is not supposed that any large quantities of Bolivian Coffee will find its way to market this season, although the exportation of Coffee, Wool, etc., etc., for the fiscal year ending June 30, 1871, aggregated a little over $5,000,000, and upon completion of the railroad and improved navigation it will largely exceed the above. Prices advance much in the States they will have to obtain large supplies from this coast so as to meet the demand. The Central American Coffee had once fallen down in San Francisco, more than it has been selling for, and the advance noted by us added hardly covers cost, so that still further advances must follow. Before another fiscal year rolls around the railroad system of Peru, under the giant mind of Mr. Meiggs, will have penetrated into Bolivia, which will add much of the products of that country to our importations, particularly that of Coffee. The Bolivian Coffee will hardly affect the market this year, if at all, before next Fall, either here or in the Eastern States. The following is in relation to the market Saturday, from the New York *Shipping List* of September 2d as also the stock on hand in New York. The stock now on hand in New York has increased with the previous years in large in excess than stocks at other seaport cities:

The situation of the market for Brazil Coffee can scarcely be written too strong, but all the elements of strength seem just now to combine to give holders a high hand, and point an upward tendency. First, we have continued accounts of a serious deficiency in the Brazil crop—then stocks have run low here and on the other side, the supplies in the interior are reported to be below the average, while, to arrive, only two vessels are expected here with some 7,500 bags, and only one or two at Baltimore. Prices have fairly advanced largely, but are not yet very high, and we do not forget that the consumption of the country has been checked by any prices. We therefore call the market extremely firm, with almost none offering at present rates, the bulk of the stock being held much higher. The demand remains good, and all parcels offered are readily taken up.
